Education

Marwadi University

Aug 2024 – Present

Bachelor of Technology in Information and Communication Technology

Rajkot, Gujarat

Relevant Coursework

- Data Structures
- Computer Organization
- Microprocessor
- Advanced Microprocessor
- Image Processing
- Signals & Systems
- Database Basics
- VLSI Design

Experience

Aartronix Innovations Pvt. Ltd.

June 2025 – July 2025

Intern *Rajkot, Gujarat*

- Gained hands-on experience with STM32 microcontrollers, including programming, interfacing, and debugging embedded systems for real-world applications.
- Performed soldering, circuit assembly, and hardware testing on ongoing electronic projects to ensure functionality and reliability.
- Assisted in hardware calibration and quality checks to ensure accurate and stable device performance across multiple test scenarios.
- Collaborated with the engineering team to understand product development workflows and contributed to testing and validation of embedded hardware designs.

Projects

ADAS (Advanced Driver Assistance System) | *STM32, LIDAR, Camera, Embedded C*

2025

- Designed and implemented an ADAS prototype capable of detecting lane boundaries and assisting in autonomous vehicle control.
- Integrated LIDAR and camera modules with STM32 microcontroller to sense surroundings and identify obstacles in real-time.
- Developed embedded algorithms to enable automatic parking functionality and emergency braking when objects are detected in the vehicle's path.
- Enhanced system accuracy through real-time data processing and sensor fusion techniques for improved decision-making.

E-Learning Platform | *HTML, CSS, PHP, MySQL, phpMyAdmin*

2024

- Developed a full-stack web application that allows students to access educational videos and learning materials online.
- Built core modules including user authentication, home page, admin dashboard, and video management system with role-based access.
- Implemented admin functionality to upload, organize, and manage course videos, while students can browse and stream content seamlessly.
- Designed a responsive and user-friendly interface using HTML, CSS, and PHP-based dynamic content handling with MySQL database integration.

Technical Skills

Languages: C, C++, Embedded C, HTML, CSS, PHP, SQL

Hardware & Embedded: STM32 Microcontrollers, VLSI Design, Microprocessor, Soldering, CAN Protocol

Tools & Technologies: MySQL, phpMyAdmin, Database Management, Testing & Calibration

Development Practices: Agile Model, Debugging, Hardware Testing, System Integration

Leadership & Extracurricular

ICT Media Team

Aug 2024 – Present

Head *Marwadi University*

- Led the media team in creating digital content and managing social media presence for the ICT department.
- Organized and coordinated technical events, workshops, and seminars to enhance student engagement and learning.
- Collaborated with faculty and students to document departmental activities through photos, videos, and written content.

Cloud Computing and DevOps Club

Aug 2024 – Present

Member *Marwadi University*

- Actively participated in workshops and seminars on cloud technologies, DevOps tools, and modern software development practices.
- Engaged in collaborative learning sessions focused on AWS, Docker, Kubernetes, and CI/CD pipelines.
